COMPANY INTRODUCTION

Sabah Designers Ltd is a 100% export-oriented ready-made garment (RMG) manufacturer, established in 2007 and operating continuously for 19+ years. The company manufactures direct for international apparel brands, retailers, and emerging labels — with no sourcing agent, broker, or trading company positioned between the buyer and the factory floor.

Sabah Designers Ltd works alongside two sister companies — Sarah Industries and Riverain — which support in-house circular knitting and printing/embroidery capacity respectively, giving the group vertically integrated production from fabric through finished, packed garment.

EXPORT MARKETS

United Kingdom · European Union (Germany, Spain, Italy, France, Netherlands) · North America (USA, Canada) · Australia · GCC (Middle East)

SAMPLING

Pre-production sampling — including fit samples, size sets, and counter-samples — typically runs approximately 15 working days from confirmed requirements to sample dispatch.

PRODUCTION LEAD TIMES

Bulk production typically runs approximately 60 days end-to-end, subject to yarn/fabric availability, order complexity, and concurrent line capacity. Confirmed at the time of quotation.

MINIMUM ORDER QUANTITY

Standard starting MOQ is 200 pieces per style/colorway on in-programme fabric, with tiered pricing for larger recurring volume. Sabah Designers Ltd supports both high-volume enterprise retailers and smaller, growing brands within the same factory infrastructure.
